OCA FILE SSCI

MEMORANDUM FOR: Deputy Director for Administration
Director, Office of Security Evaluation
Director of Security
Director Community Counterintelligence
and Security Countermeasures Staff

FROM: [redacted] Congressional Affairs

25X1

SUBJECT: Status of Proposed Hearings on Security and
Counterintelligence.

1. John Elliff, SSCI staff, informed me today that the decision to hold hearings on security and counterintelligence has still not been approved by Chairman Boren. Elliff advised that Members are still interested but remain uncertain whether time will permit given the target date for adjournment of 7 October. He promised to alert me as soon as the decision is made.

2. Elliff said that he and other staffers wanted to be briefed by [redacted] and Robert Lamb, State Department, on the implementation of the Webster-Shultz agreement. According to Elliff, Lamb had recently called to express an interest in speaking with the SSCI staff this week or next. Elliff was inclined to delay meeting with Lamb until the State engineering studies are completed and to have any meeting with Lamb attended by [redacted] I agreed. Elliff indicated that he would seek to arrange a staff briefing by Lamb and [redacted] for sometime in either late August or early September.
